AMERICANS NEGLECTED IN LONDON MARKET.

STRIKE AFFECTED COALERS IN NEW YORK.

Support on the Decline Was Exceedingly Good - People's Gas Was Lower.

REPUBLIC SPECIAL.

New York, Sept. 13.-American stocks were rather neglected in the London mar ket and sagged in the absence of trading The interest centered in the English railroad stocks, which were lower on labor troubles and reduced dividends on the Scottish roads Consols were steady, but there was some little reaction in Kaffir shares. The news from China was indefinite, but the market was inclined to consider the Boer war practically settled by the flight of President Berlin, but easy elsewhere. No movement In exchange was reported. The Bank of remains at 4 per cent. The bank return was a strong one, and showed a high pro-

In the local market hard coalers sold off it the opening on the anthracite strike. The good and gave color to the rumors of trunk line purchases. Traders were inclined to attack stocks known to be more or less controlled by pools, and Missouri Pacific and Baltimore and Ohlo suffered. Soft coalers were lower at the opening on the possibility of the labor trouble spreading to the bituminous districts, but railied very

People's Gas was lower on the report from Chicago that the citizens had com-bined in a refusal ta etaotETAOIoNINNN bined in a refusal to pay more than 50c for gas on a threat of establishing municipal gas control, and azitating for the withdrawal of People's Gas franchise. The movements in Sugar and Brooklyn Transit were very largely professional, and no fresh news was forthcoming in these stocks. The public showed a distinct inclination to switch over to the railroad stocks, probably

switch ever to the railroad stocks, probably with an blea that they gave a better return to the outsider. The close was duil, but hard, and, in spite of the various adverse rumors current there was no stock offering in any department. The St. Paul dividend was what the market had expected, and aroused no interest. The berrowing demand showed a little scarcity of stock, but the secount open was very trifling.

Reports of the iron and steel trade indicate a better demand in spots, and there is also some revival in the steel-rail trade. West Shore has lodged a good order with Federal Steel for rails, and any further reduction in price will probably bring contracts from other roads. The market considered the St. Paul dividend a foregone conclusion, and the stock showed fair strength. The market, although somewhat inactive, is generally more duil than weak, and a very little leading would stimulate public buying.

THE LOCAL MONEY MARKET.

Market Again Fairly Active, but No Changes of Importance Took Place Changes of Importance Took Place.

A moderately brisk day was experienced among the different local financial institutions, business in a general way being on quite a liberal scale. There were no changes to note, at least none of importance. The demand for money continues very good both on local and outside account, and considerable money found emisloyment at the considerable money. Journal emisloyment at the considerable money. Routine business was active, especially electing and depositing, both of which were large.

The day's hank clearings were posted at 15, 25, 247; balances were 124, 361.

Bomestic Exchange.

Domestic Exchange. Whitaler & Hodgman, bond, stock, commercial paper and exchange brokers, 300 North Fourth street, quote exchange as follows.

LOCAL STOCKS AND BOXDS. An Extremely Dull Market-Granite Bi-Metallie Higher.

The dullest market of the week to far was experienced to-day, and as far as that is concerned, it could hardly have been duller, as not a trade of any kind was made. Outside of mining stocks, farre was not a slogic feature to the situation. There were few quotations made, but no price changes of importance.

Granite-Bi-Metallie showed up very strong, bids being advanced from \$2.50 to \$1.575, without a trade, the lovest seiting ours being \$2.60. The close was strong at \$2.55 bid and \$2.655 asked. American-Nettie was also better at \$1.50 bid and \$1.55 asked.

There was some inquiry for United Rallways, but no sales or commes of importance. Trust and bank stocks continue more or les There was the usual bid of \$100.55 for Brewery

TO FORM ARMY OF NATIVE FILIPINOS.

Tribal Hatred to Be Utilized in Suppression of Rebellion in the Islands.

IDEA MOTHERED BY NECESSITY.

American Soldiers Must Be Brought Home and Discharged-Brown Men Delight in Killing Members of Other Tribes.

Manila, Aug. 1 .- As the time approaches for the volunteers to leave these islands and return to the United States in order that all may be mustered out there by June 30 of next year, the question of how 13.-River 1.7 feet and to replace the departing troops has brought the matter of an armed native militia to general notice.

For more than a year there has been in the service of the United States a detachment of native Macabebe scouts, and their work has in the main been satisfactory. It is argued that other native fighting organizations can be used with as good a result as the Macabebes, especially if the tribal hatreds and jealousies in selecting native soldiery to operate against the Tagalogs

Natives Used as Local Police.

In many of the village garrisons throughout the islands native inhabitants are being employed as a local police force to protect their own villages against depredation and attack from robbers and other malefactors These local police are, in some cases, given firearms and uniforms and they have at times done effective work in the limited field of action allowed them, namely the protection of their own homes. They have also been used in operations against the insurgents, both in Luzon and in the Southern islands.

In Leyte, they did good work two months In Leyte, they did good work two months ago, when they helped eight American soldiers to repel a persistent insurgent attack upon their town, and two weeks ago, near Lipa, twenty native policemen went

near Lipa, twenty native policemen went out alone against forty insurgents, scattered the enemy, killing one and returned proudly to their town with two of their number wounded.

These are the beginnings of what must eventually come to pass in the Philippines, namely the organization and use of native soldiers to preserve order in the country. Just how these men will be organized and officered is not yet decided; but Major Alten of the Porty-third Regiment, on Samar Island, has lately been given permission by General MacArthur to organize two companies of Visayans for use against the insurgents, and Colonel Kennon of the Thirty-fifth Regiment, now stationed in Cabanatuan, in the Neuva Ectja Province of Luzon, has been experimenting along the same lines with Hocanos from the northern portion of Luzon Island.

Colonel Kennon's Experience.

In December of last year about 600 Hocanos are server to Cabanat.

Colonel Kennon's Experience.

In December of last year about 600 llocamos came to Colonel Kennon, at Cabanatuan, and asked to enlist under the American flag. Colonel Kennon at once opened negotiations with the corps headquarters, in Manila on the matter, and June I he was granted permission to enlist fifty flocanos as scouts. During this interim of six months the 600 men were employed, as far as possible, as road builders, ration carriers and guides. The success of this first detachment in the service will probably soon lead to the enlistment of other flocano tribesmen.

lead to the enlistment of other flocano tribesmen.

Between flocano and Tagalog there is a fierce race hatred. The Tagalogs have lorded it over the flocanos for years, and have held them down and oppressed them. But to-day the flocanos, who pride themselves on belonging to another and distinct tribe from the Tagalogs, have, in a measure, accepted American sovereignly, and are itching for channess to get at their enemy.

This attitude of the flocanos subjects them to Tagalog reprisals and vengeance. Last mouth a band of insurgents caught three flocano women and one man alone on the read near San Jose, in Nueva Ecija Pravince. The man and one woman were far

later found and rescued them.

How Tribul Hatred is Utilized.

On the borders of the Hocano-Tagalog country such occurrences are common and go to show the existing tribal hatred. It is this hatred more than anything else that renders the Hocano effective and useful as a fighter against the Tagalog. Colonel Kennon's scouts were at once put on the trail of the Tagalog party that buried the Hocano women alive, and they chased and punished them.

of the Tagalog party that buried the more alive, and they chased and punished them.

The scouts have been active since their organization. For the first three weeks they were drilled by Americans, and their own noncommissioned offseers, showing much interest and pride and considerable apritude in this training. They were sent, June 24, to the support of the American garrison at Alaga, threatened with attack by 300 rebels. The following day twenty-two flocanos, scenting south of Aliga, under command of Licutemant Jernigan of the Thirty-fourth Regiment, not sixty of the enemy, and, in a sharp fight, killed four. They put five more of the insurgents hors de combat.

June 28 and June 29 seven flocanos and three Americans met seventy insurgents and, after killing three, they retired for re-enforcements, and found Licutemant Jernigan, with thirty scouts, who promptly routed the Tagalogs, adding to the rebel losses thereby until the total number of the enemy killed by the fifty flocano scouts on their first campaign reached seventeen. Are Poor Shots, but Good Scouts.

American Soldiers Are Worn Out.

American Soldiers.

American Soldiers Are Worn Out.

It has been Colonel Kennon's policy to pursue the robbers and insurgents without let-up. Their bands have been dispersed in his district, and they are not permitted to organize, their chiefs have been killed and they are afraid to show themselves with arms. All this work has failen on the Americans, and they are worn out and exhausted with the continual round of "hike" and guard duty, guard duty and "like." The liocanos are showing that they can relieve the Americans of some of this most arduous work.

When the Ilocano scouts were organized, their first duty was on outpest near Cabanatuan. They at once abused the power given them by making every Tagalog who came along that road respectfully salute them. But, as champions of those who are oppressed, the American officers soon put a stop to this practice.

PACE FAMILY REUNION.

Three Hundred Members Present-Officers Elected. REPUBLIC SPECIAL.

REPUBLIC SPECIAL.

Mount Vernon, Ill., Sept. 13.—The third annual reunion of the Pace family was held in the Appellate Courtyard to-day. About 26 of the various branches of the family and friends were present. The family is one of the largest, weathiest and most influential in Southern Illinofs. Addresses were made by the Reverend Doctor George N. Turner, J. E. Fergerson and J. M. Pace. Resolutions were passed thanking the Appellate Judges and other officials for the use of the grounds.

J. F. Watson was re-elected president, J. M. Pace vice president, J. V. Baugh secretary, W. T. Pace historian, and Doctor W. C. Pace treasurer. Joel Pace, the founder of the family, was a soldier in the Revolutionary War.
